<https://www.thermaltake.com/downloads>

OS compatibility: Windows 10 / Windows 11

TT RGB PLUS Software User Interface

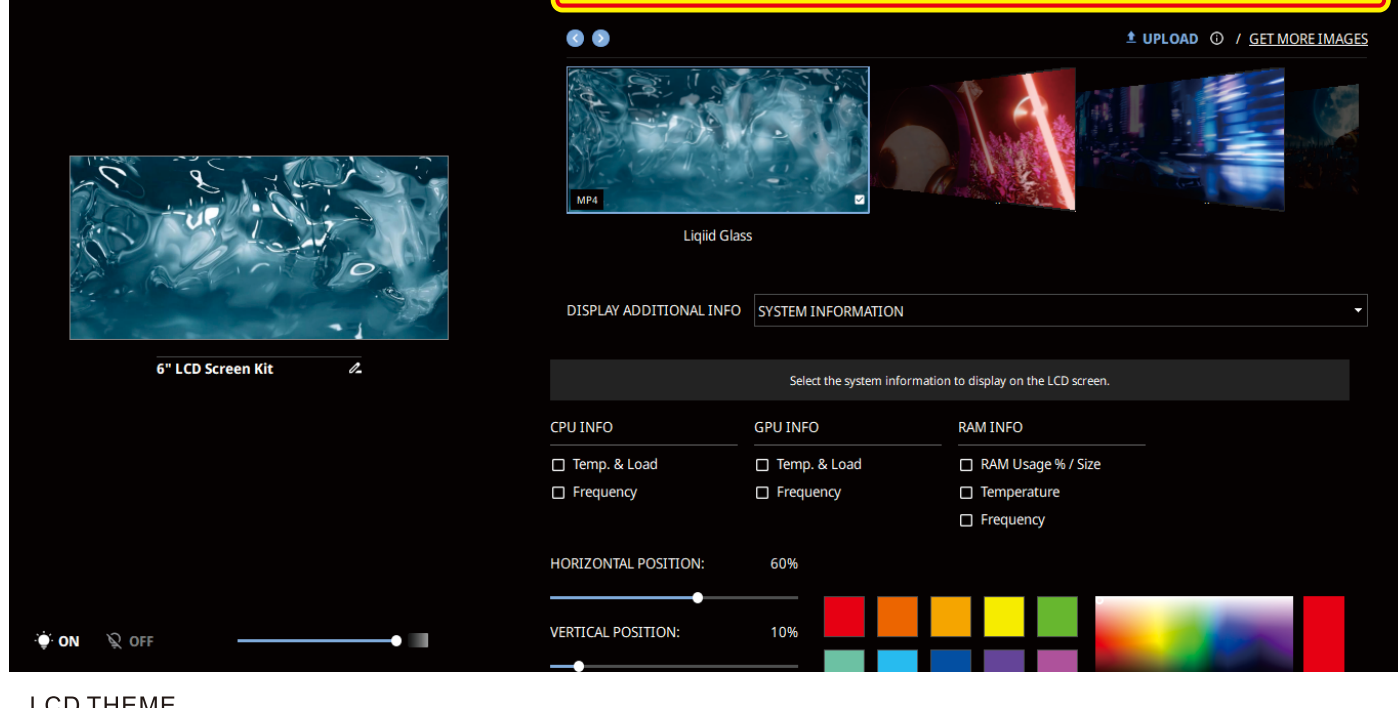

6" LCD Display

LCD MONITOR

After installation of TT RGB PLUS, the user can find the **6" LCD Screen Kit** on the "LCD MONITOR" page, and click it to enter.

GENERAL

LCD THEME

There are 4 LCD theme functions.

1. BACKGROUND

Users can select to show **SYSTEM INFORMATION** or **TEXT** on the screen in "DISPLAY ADDITIONAL INFO".

A. SYSTEM INFORMATION

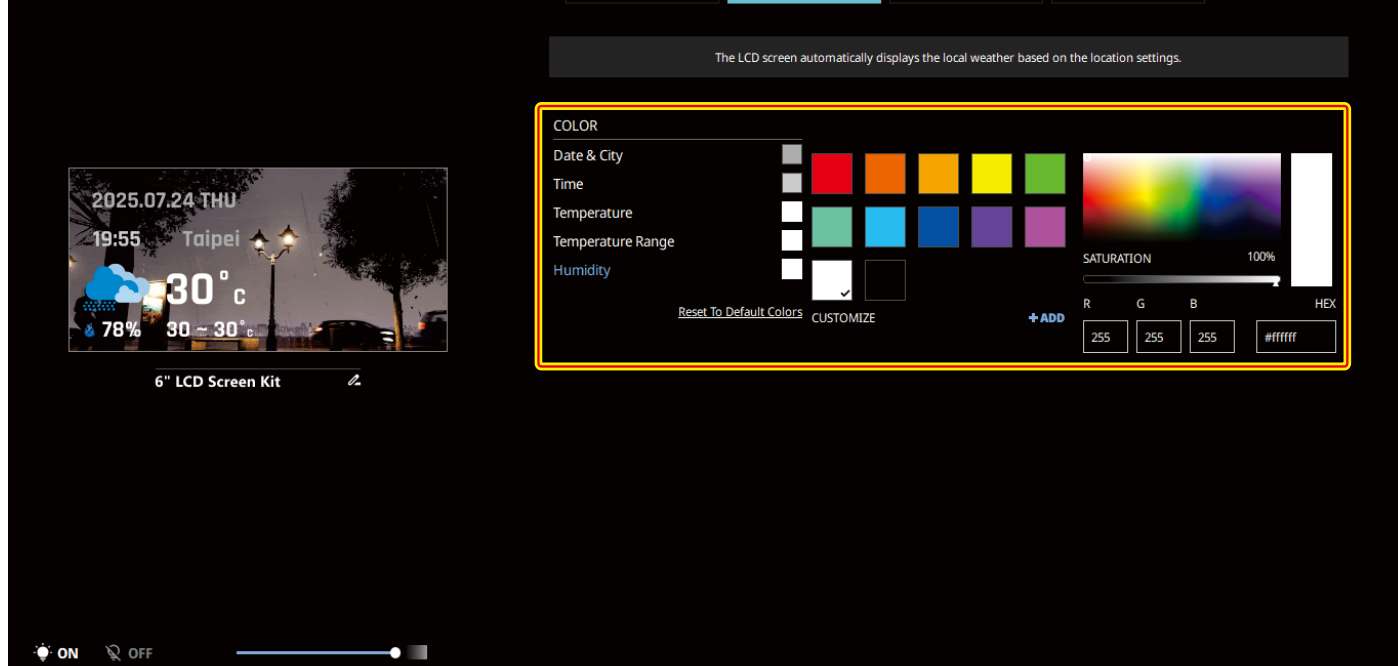

- CPU INFO: Temp. & Load, Frequency
- GPU INFO: Temp. & Load, Frequency
- RAM INFO: RAM Usage % / Size

B. UPLOAD

Users can upload files to show on the LCD monitor.

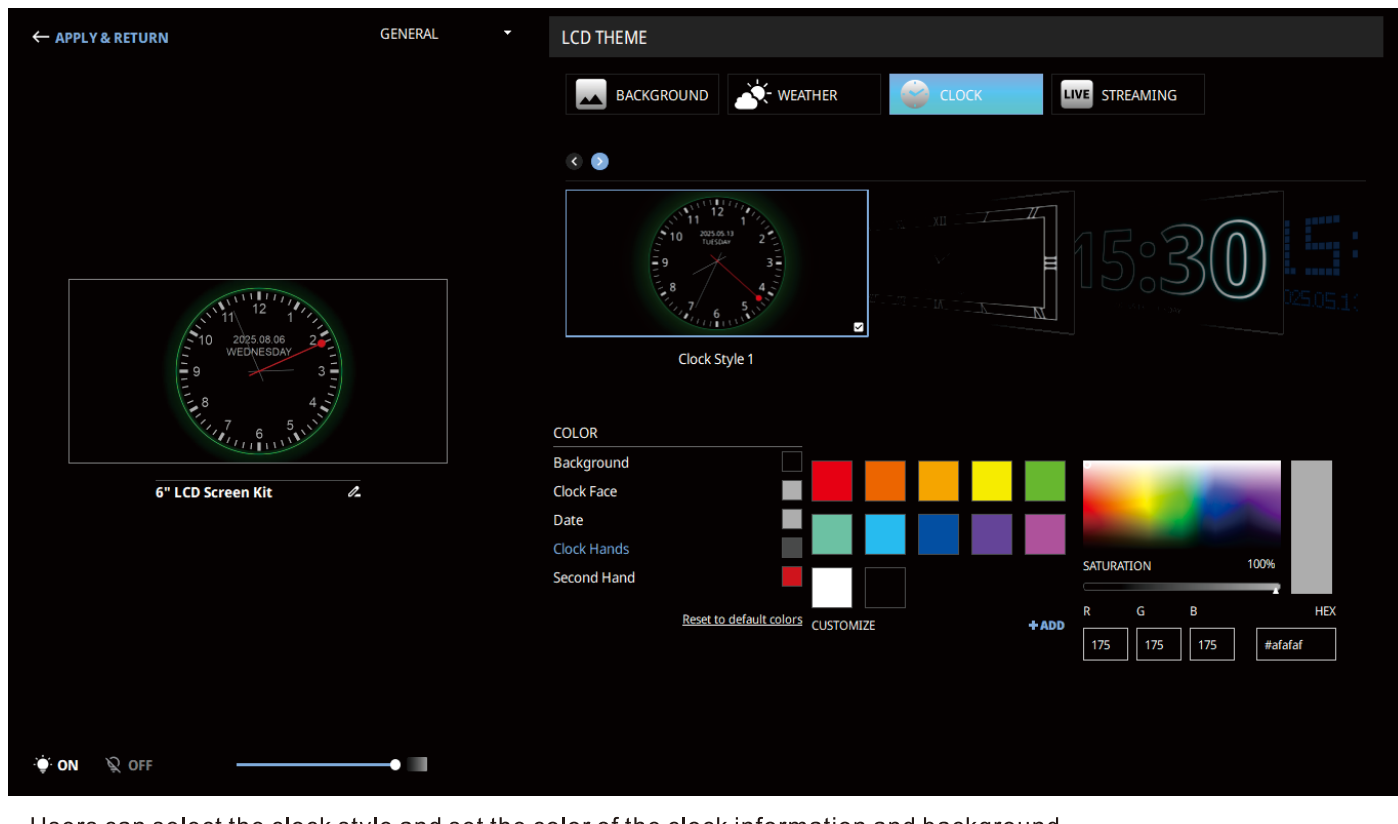

Supported file: JPG, PNG, GIF, MP4, MOV, and AVI.

2. WEATHER

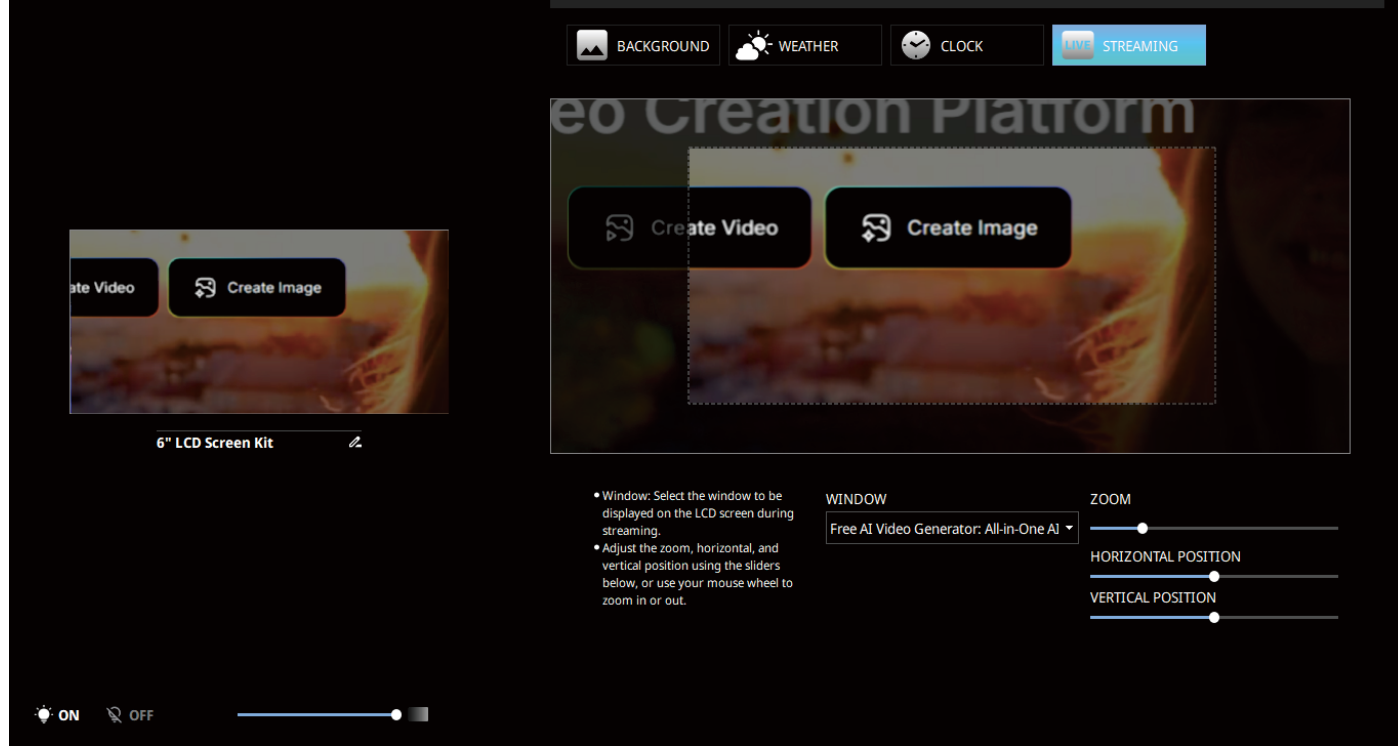

Users can set the color of the weather information.

3. CLOCK

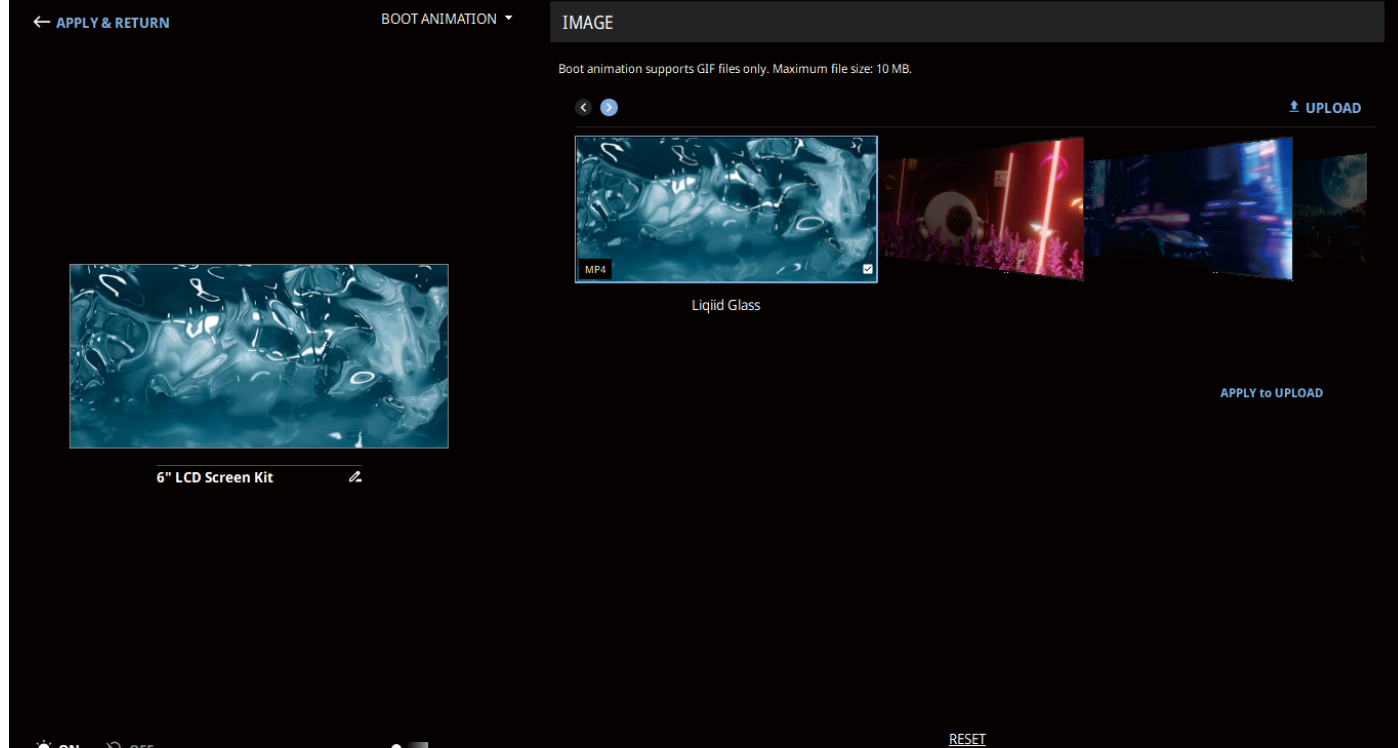

Users can select the clock style and set the color of the clock information and background.

4. STREAMING

Users can mirror your desktop here. In the "**WINDOW**" section, select the item you want to show.

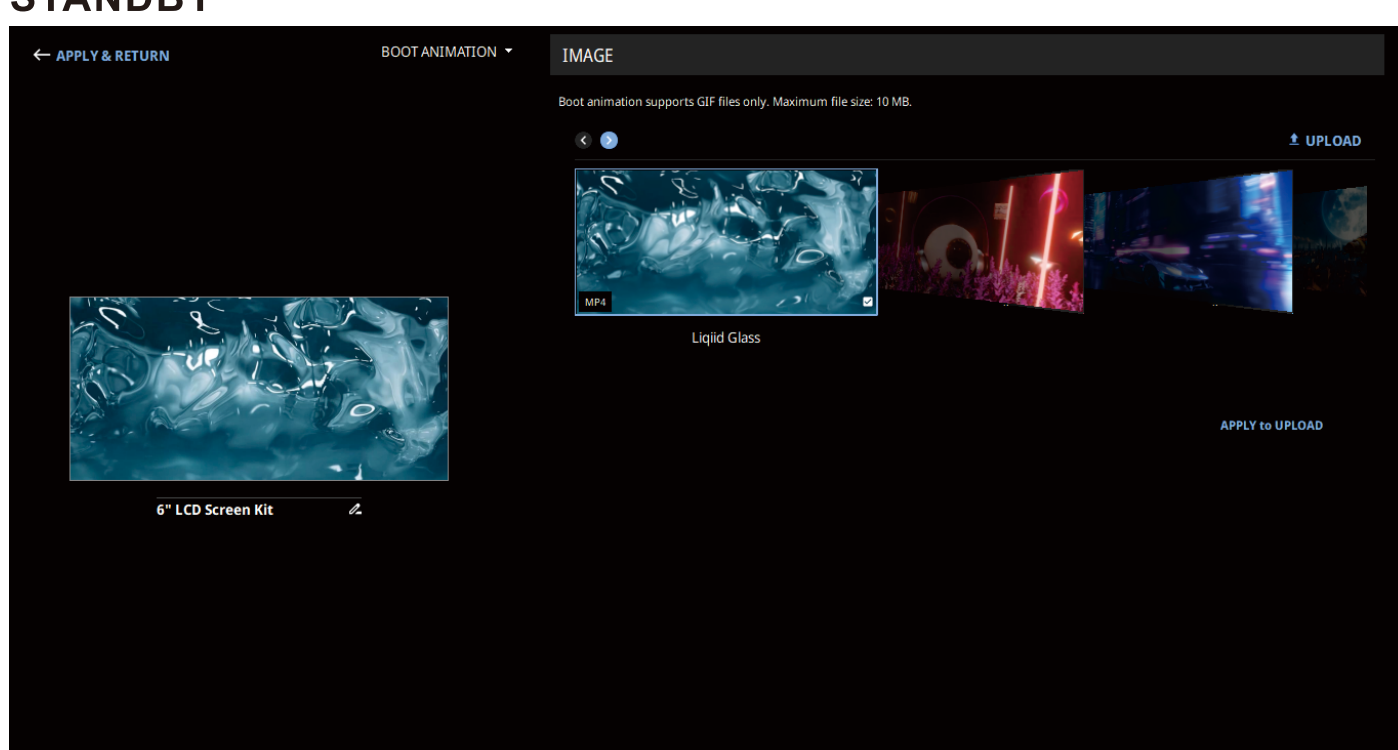

BOOT ANIMATION

Users can change the boot animation here.

Supported file: GIF and MP4. Maximum file size 30 MB.

STANDBY

Upload standby images and animations, and set to keep the LCD screen on during standby.

Supported file: JPG, PNG, GIF, and MP4. Maximum file size 30 MB.

The software interface may vary with feature updates.
