4

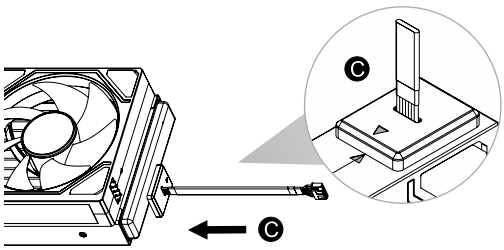

5

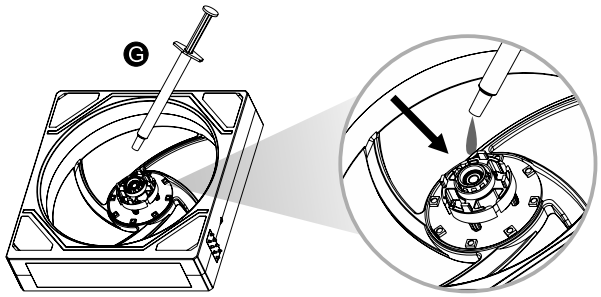

6

Oil Setup Guide

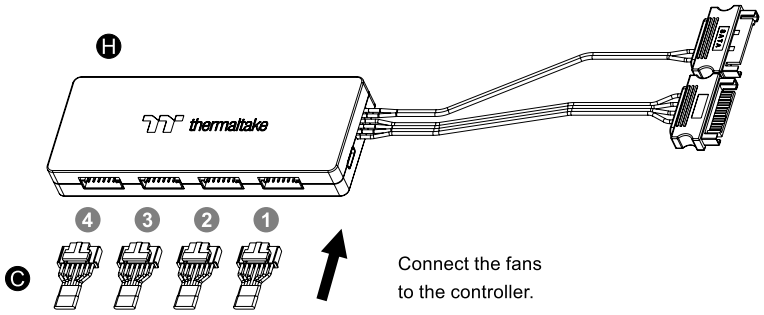

After replacing the fan blades several times,
add the oil into the bearing (about 0.1ml)

Controller Installation Guide

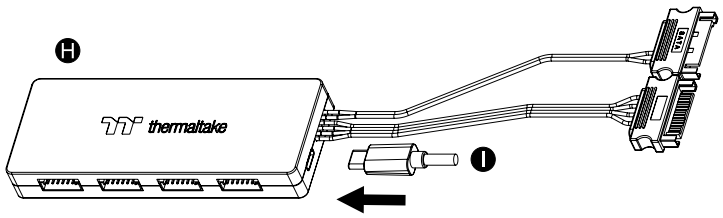

CAUTION Please power off the PC and check the Positive and Negative ends on the connector before connecting the cable to mainboard. Connecting the wrong end can damage the controller.

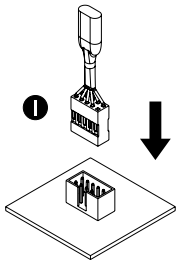

1

Connect the fans
to the controller.

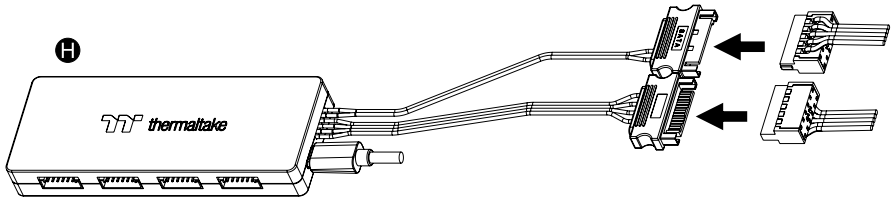

2

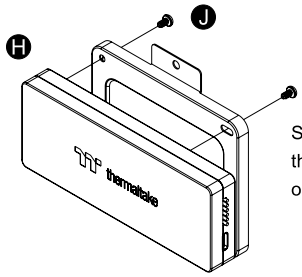

Connect the controller cable to the motherboard and controller.

3

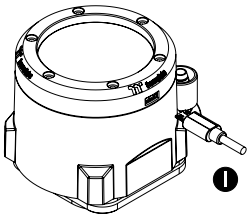

Connect the Power Cable to the controller.

4

Secure the screw into
the mounting hole
on the SSD bracket.

5

Extra information

You can plug the “micro USB" in the pump
if needed while using an AIO cooler
